PHASE 69

LOWER DECK BEAMS

NOTE:

- Look carefully at the construction sequence shown on the drawings on the following pages for positioning the beams of the lower deck.

- Each assembly sequence is marked with the letters A, B, and C.

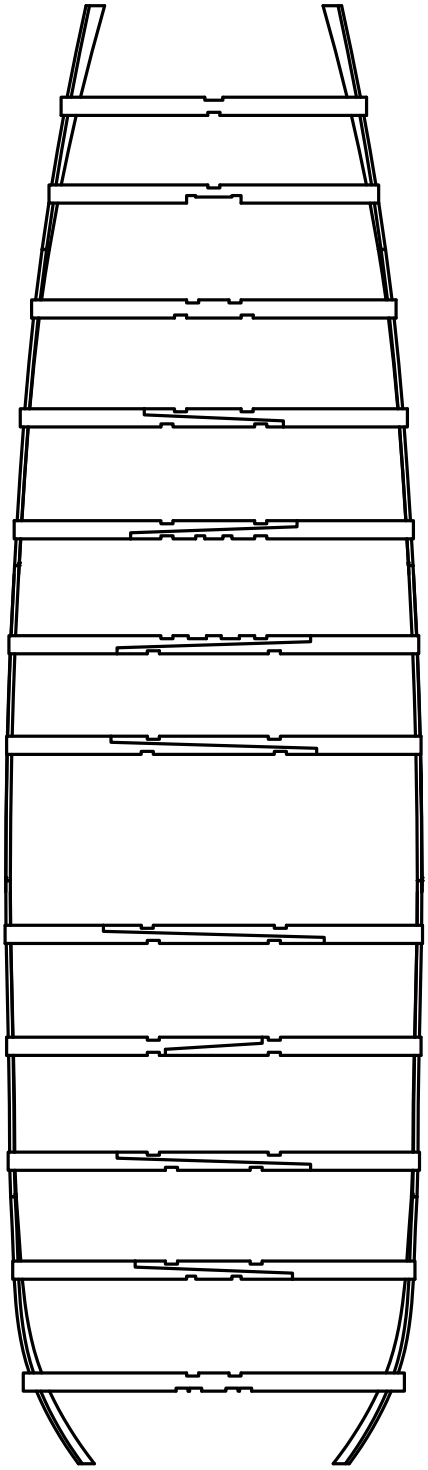

- The part highlighted in red on drawing A is the one that should be detached from its tablet and glued.

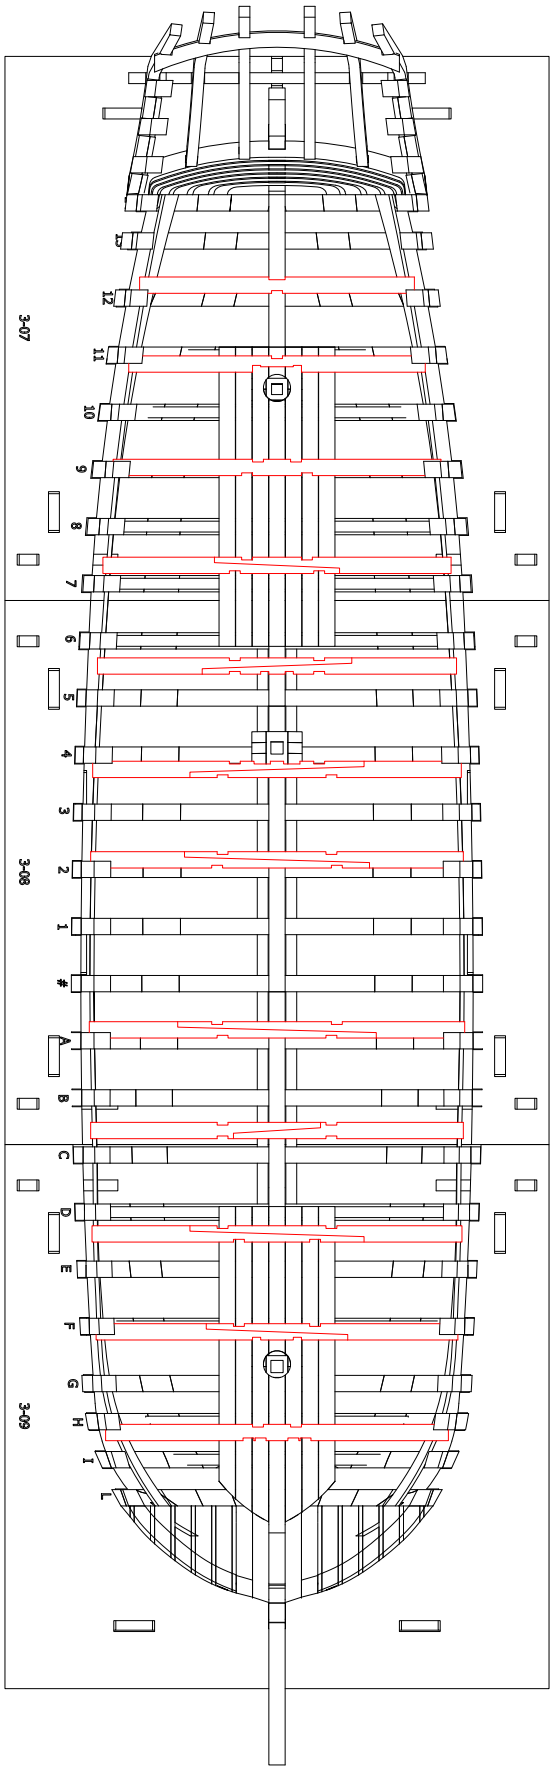

- Drawing B shows in detail the pieces detached from the tablet and how they interlock with the rest of the model.

- Drawing C shows the position at which to glue the piece.

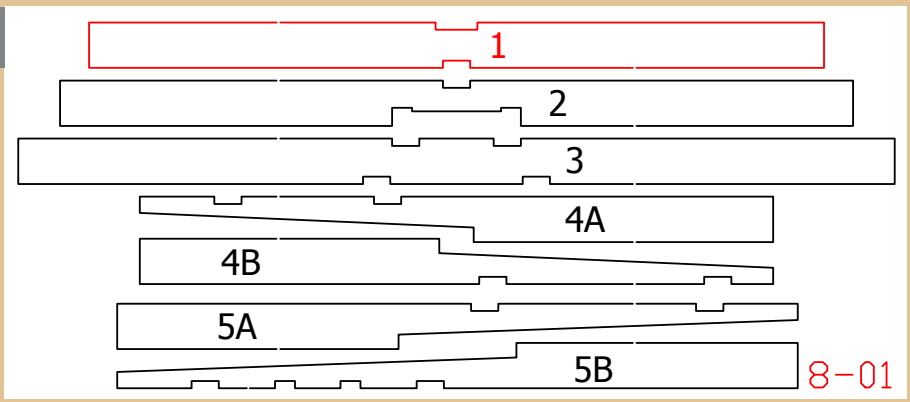

- Gently clean the pieces with an abrasive sponge.

- Before gluing, always do a “dry” test and adapt the pieces using a small abrasive sponge.

PHASE 71

LOWER DECK PLANKING

NOTE:

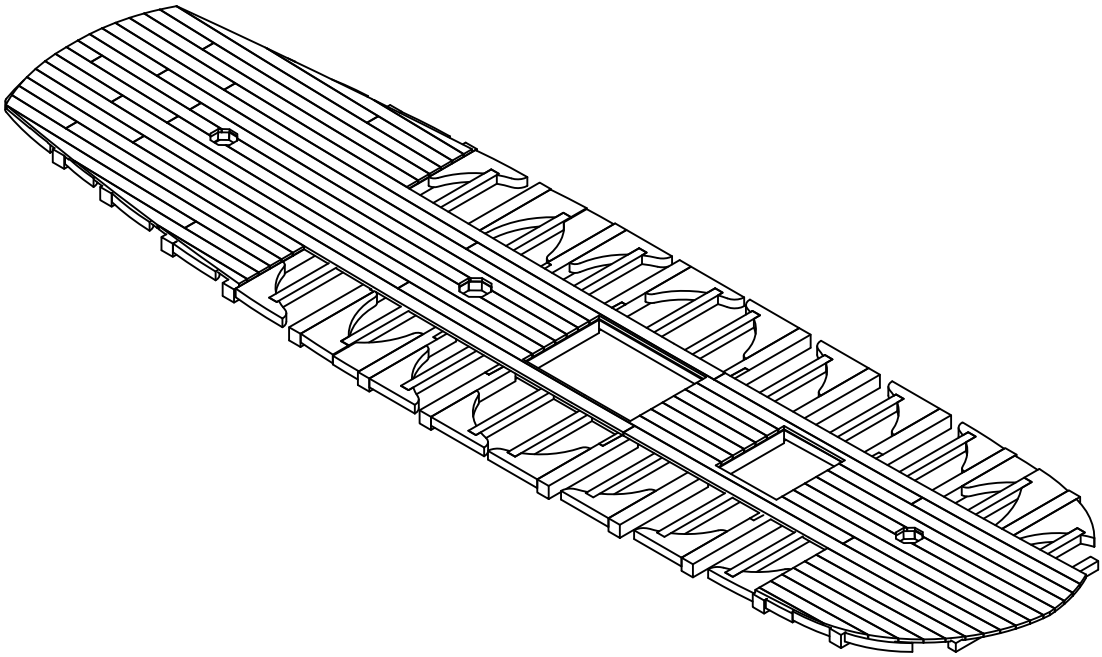

- In this phase you will use the type A strips that were supplied to you with Pack 07. You will need to cut and shape them depending on where they are to be positioned.

- To make the planking of the lower deck, carefully follow the construction sequence shown in the drawings on the following pages (drawings A and B).

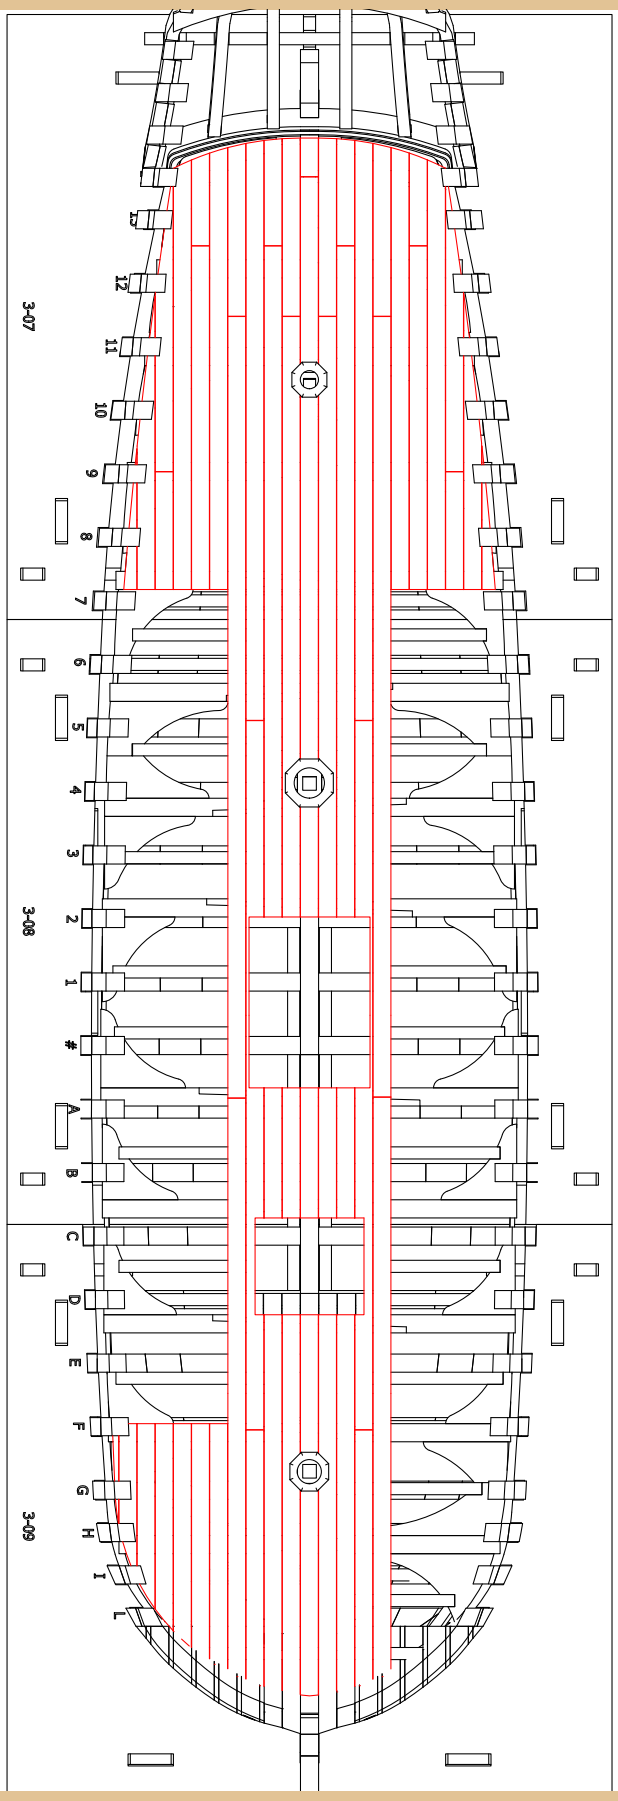

- The joints of the planking must always be positioned on the beams.

- Before gluing the pieces, always do a “dry” test and check that the measurements of the strips are exact.

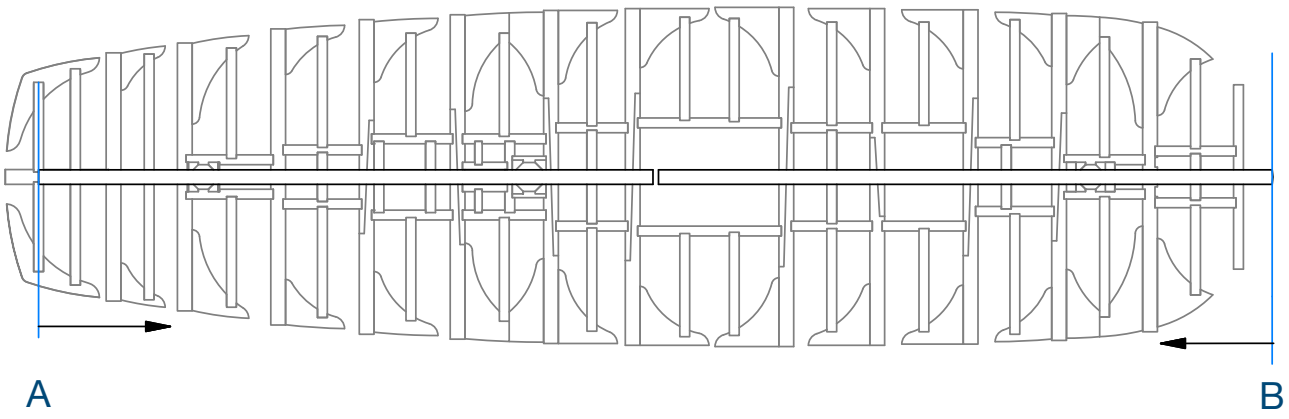

A

B

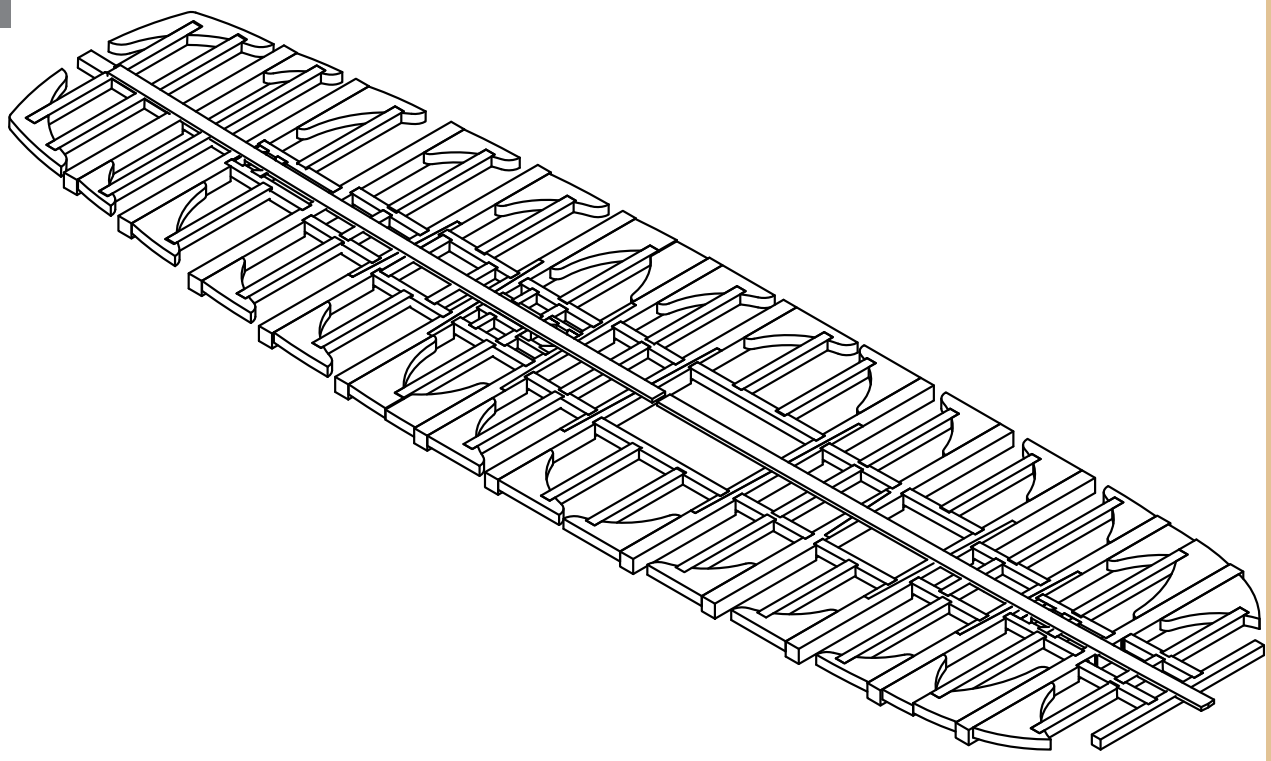

1

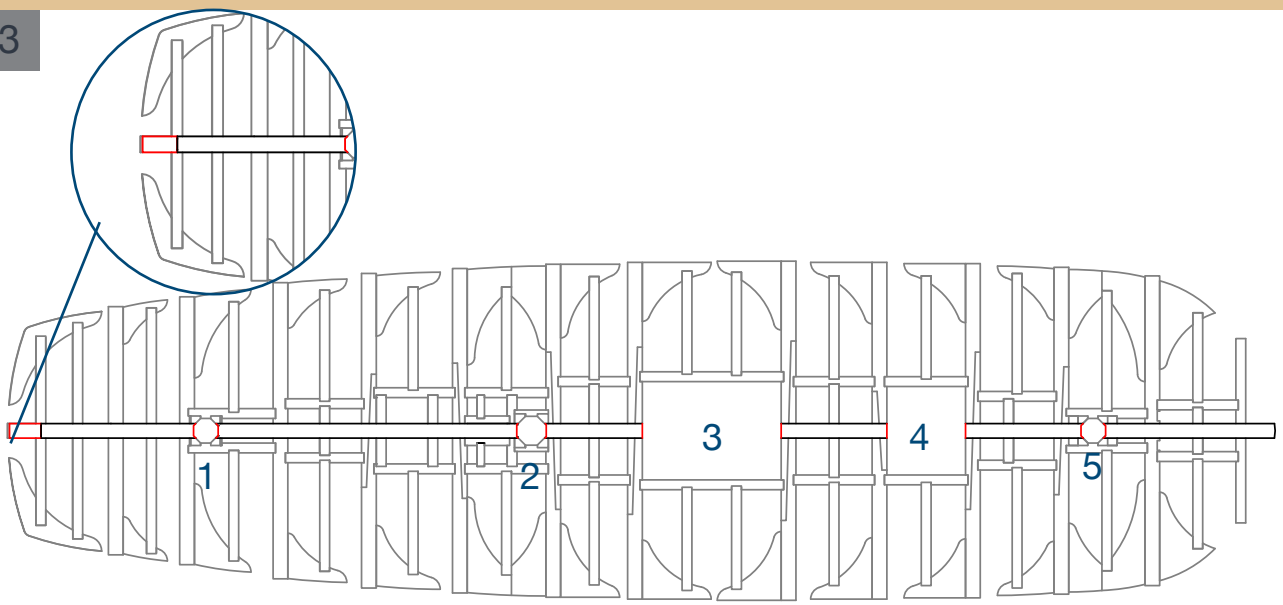

1 Take two strips and glue them to the centre of your model, from line A to line B.

2

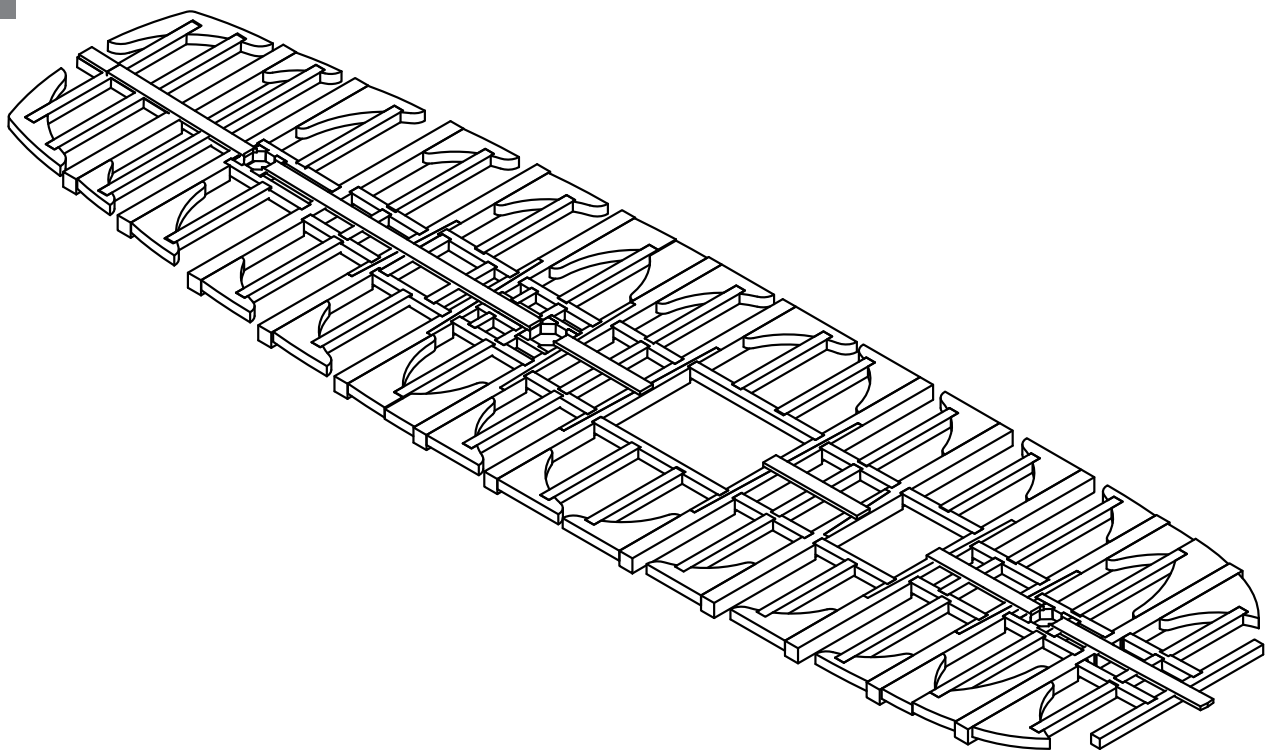

2 The two strips correctly positioned.

3

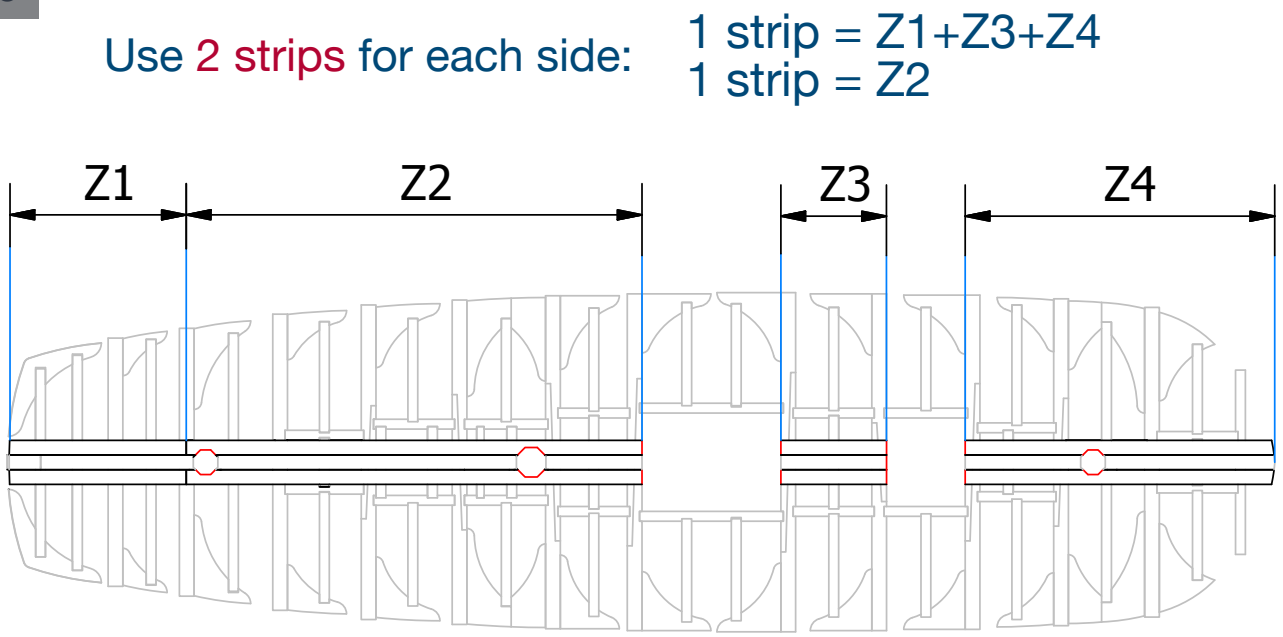

3 From a leftover strip, cut the piece shown in the red circle and glue it in the position shown, to complete the termination of the deck. Remove the parts of the strips shown in red on the drawing (parts 1, 2, 3, 4 and 5).

4

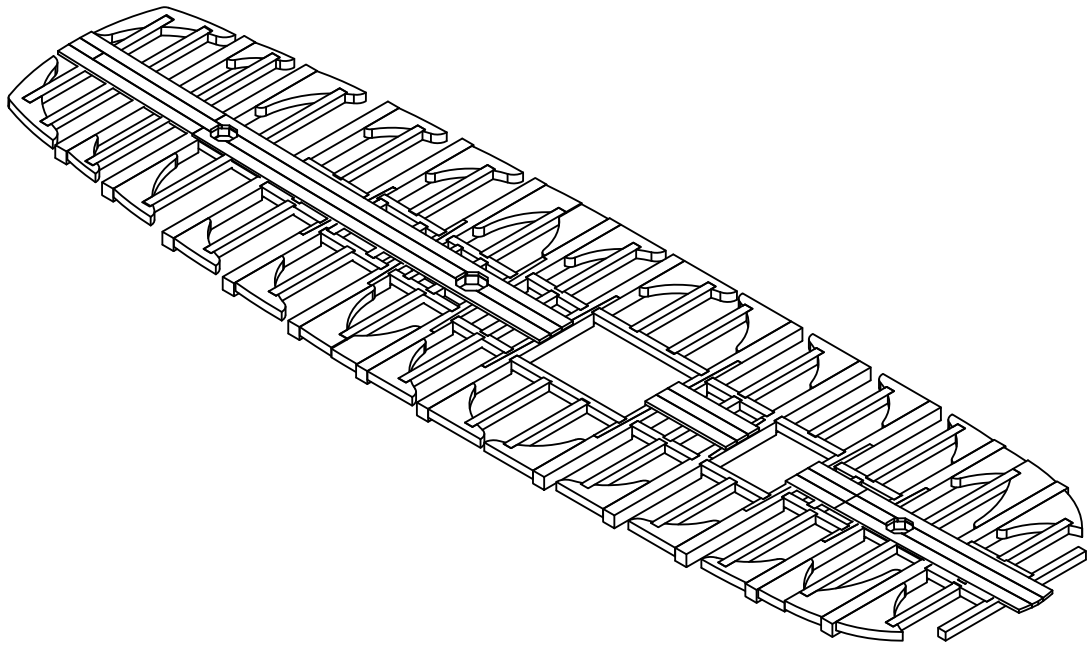

4 This shows the results of the operations you carried out in the previous step.

5

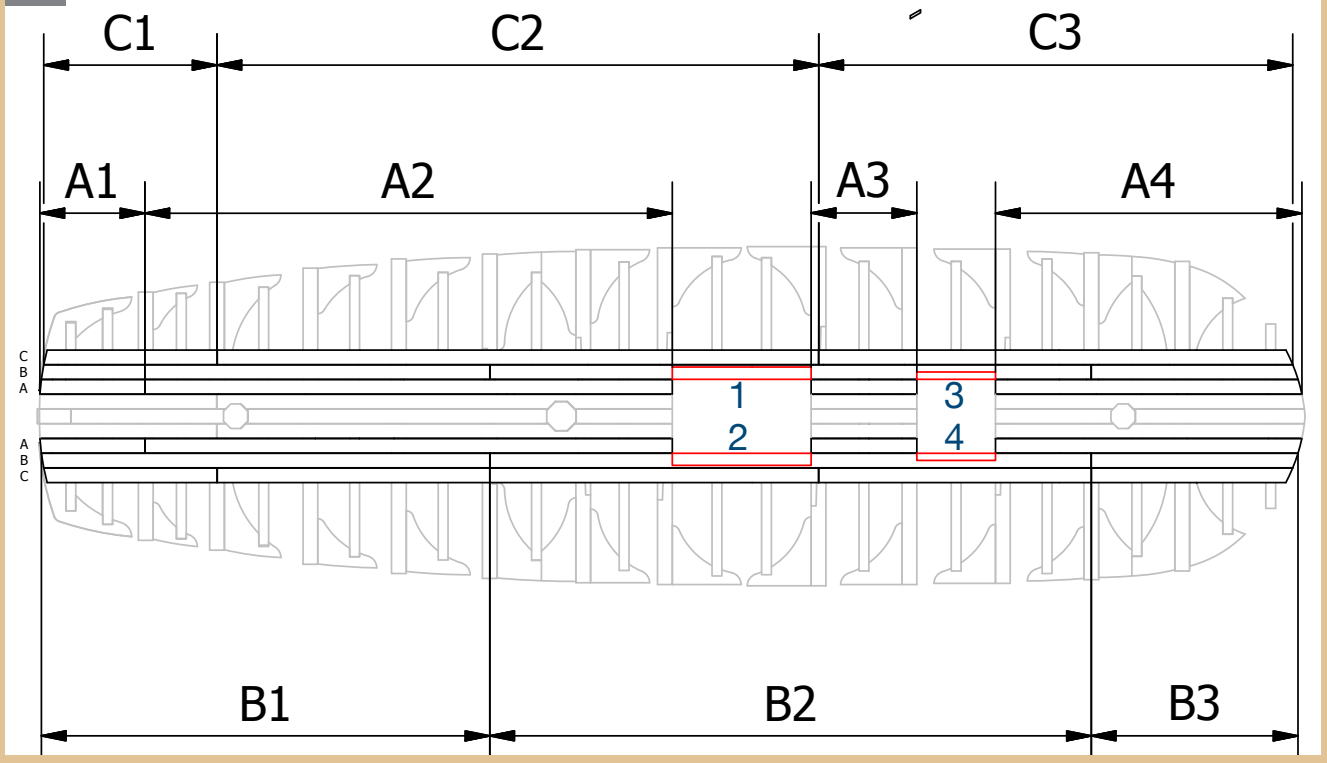

5 Take 4 strips and shaping them as shown, use 2 strips for each side as shown in the diagram. After positioning the strips, you will need to remove the parts shown in red.

6

6 The new strips correctly positioned.

7

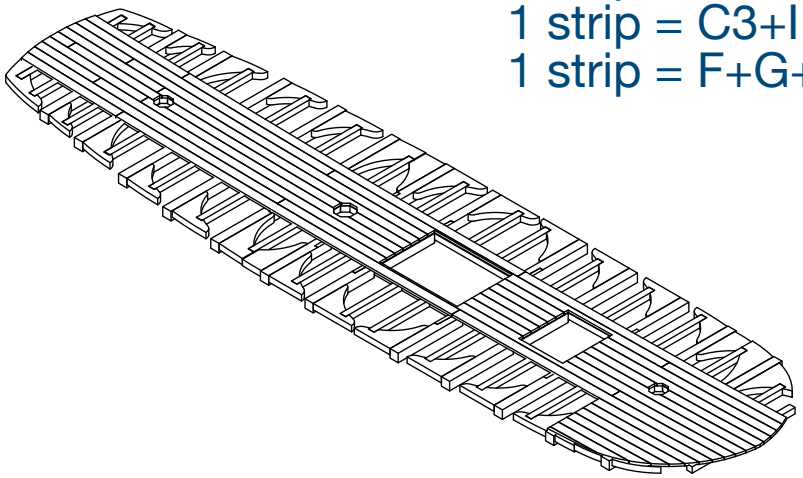

7 Take 16 strips and use them as shown in the diagrams on drawings 7, 8 and 9. Use 8 strips for each side (drawing 8). After gluing all the strips, remove the parts highlighted in red (1, 2, 3 and 4, shown in drawing 7).

8

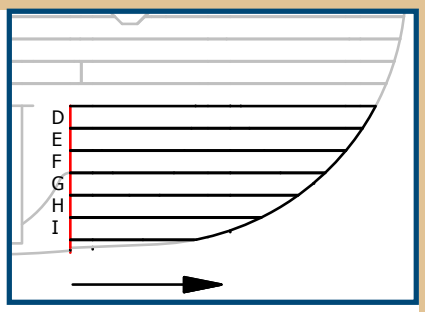

Use 8 strips each side:

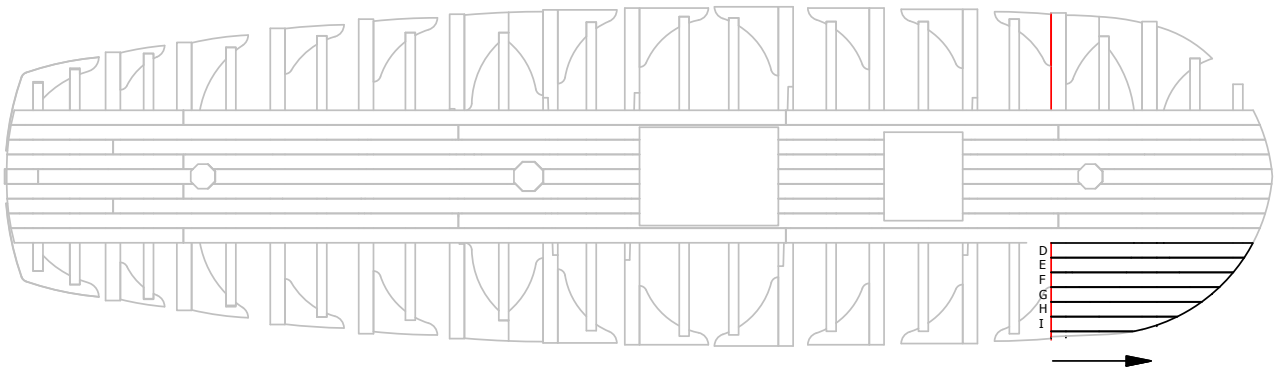

1 strip = A1+A3+A4
1 strip = A2
1 strip = B1+C1
1 strip = B2
1 strip = B3+D+E
1 strip = C2
1 strip = C3+I
1 strip = F+G+H

8 NOTE: this diagram also shows the part of the planking that you will be assembling in the next step.

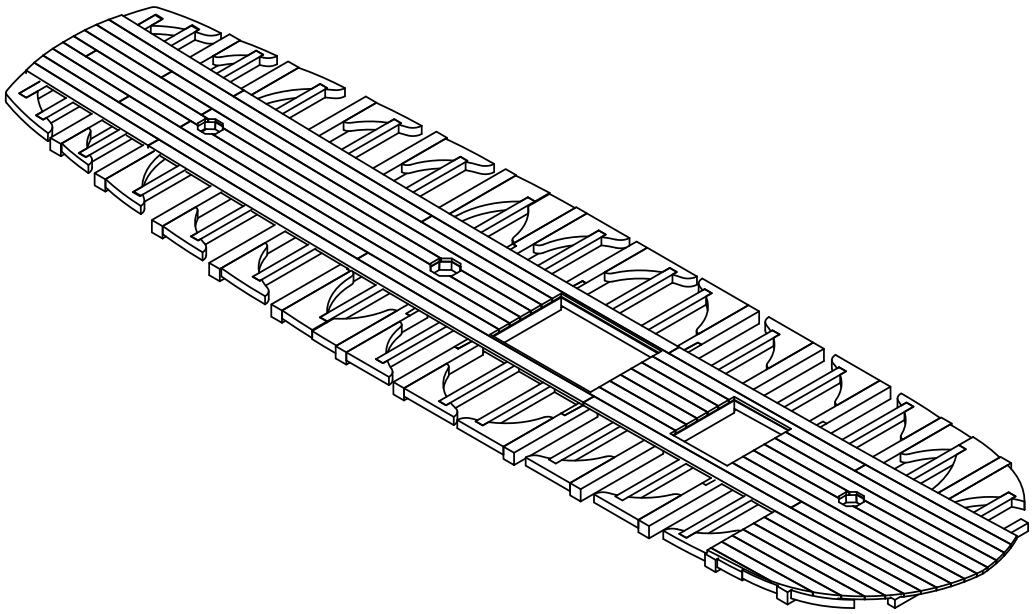

9

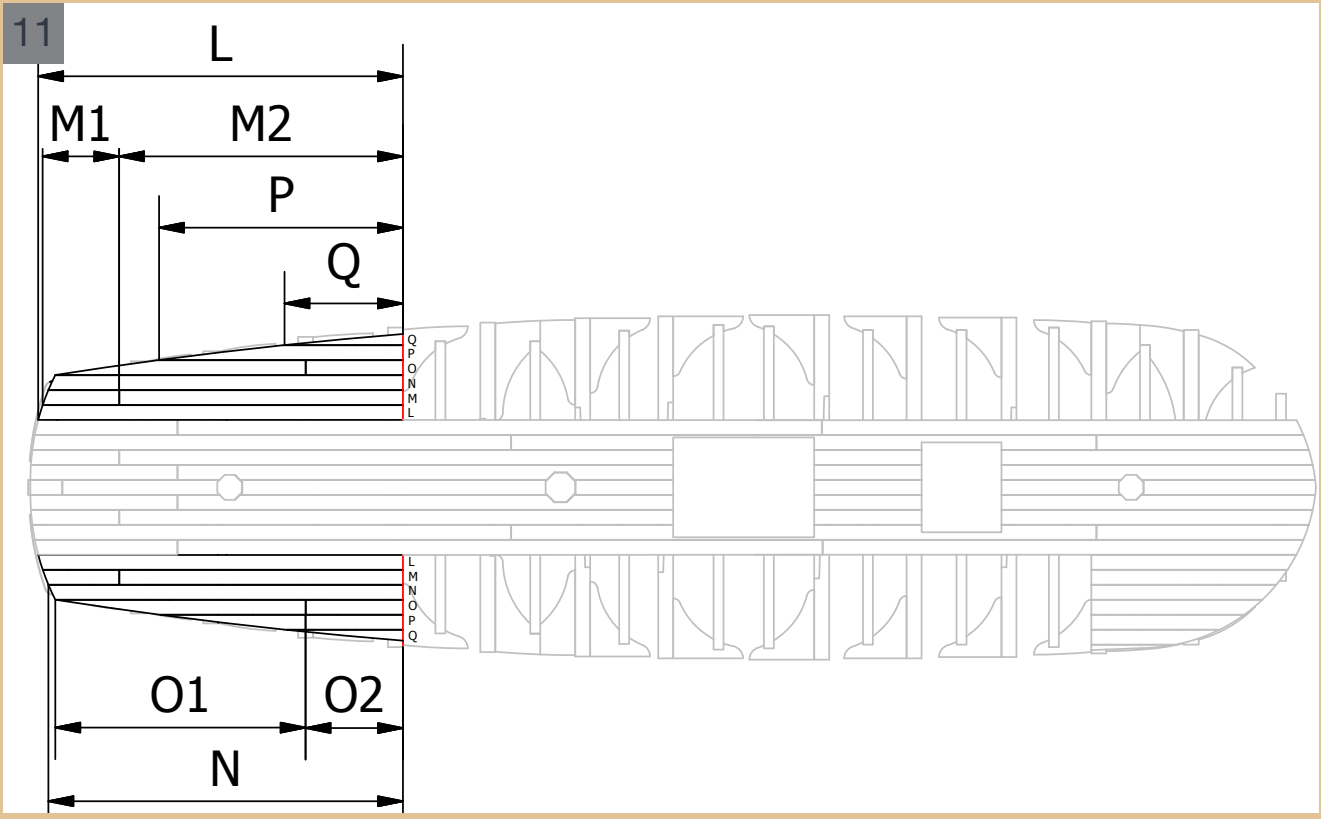

9 Looking carefully at the diagram, position the pieces D, E, F, G, H and I, which you obtained in the previous step.

10

10 The central strips and the planking to one side of the bow, correctly positioned.

11

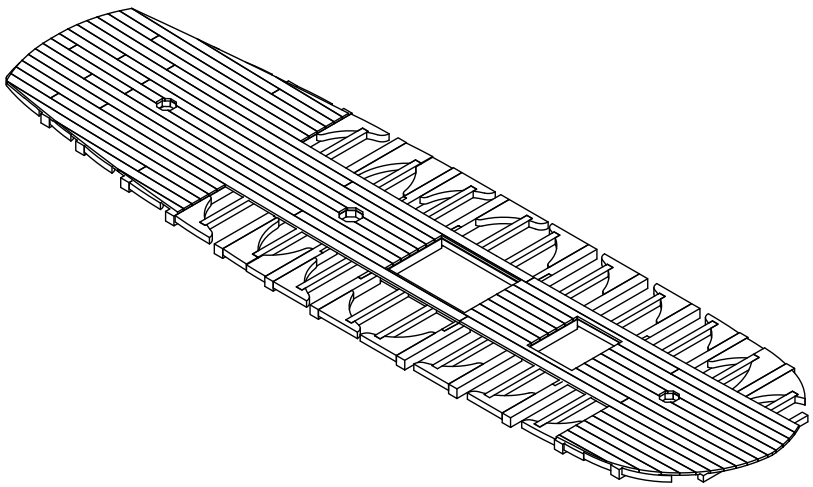

11 Take 6 strips and shape them as shown in the diagram on drawings 11 and 12. Use 3 strips for each side.

12

Use 3 strips for each side:

1 strip = L+P
1 strip = M1+M2+O2+Q
1 strip = N+O1

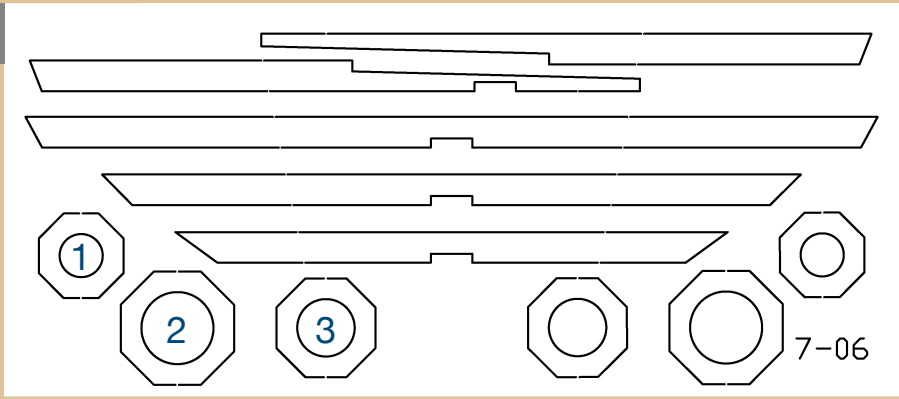

12 The planking of the lower deck is complete.

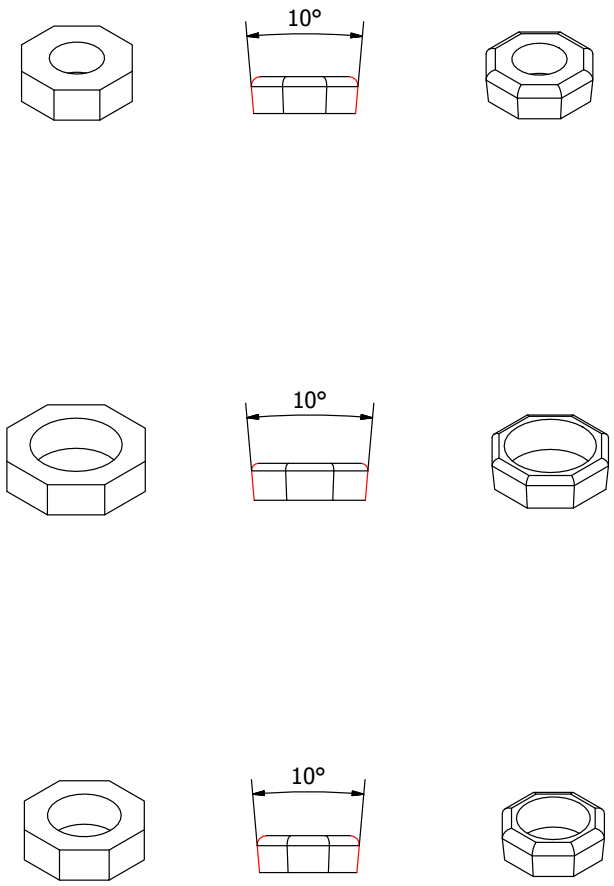

PHASE 72

MAST FEET, LOWER DECK

A

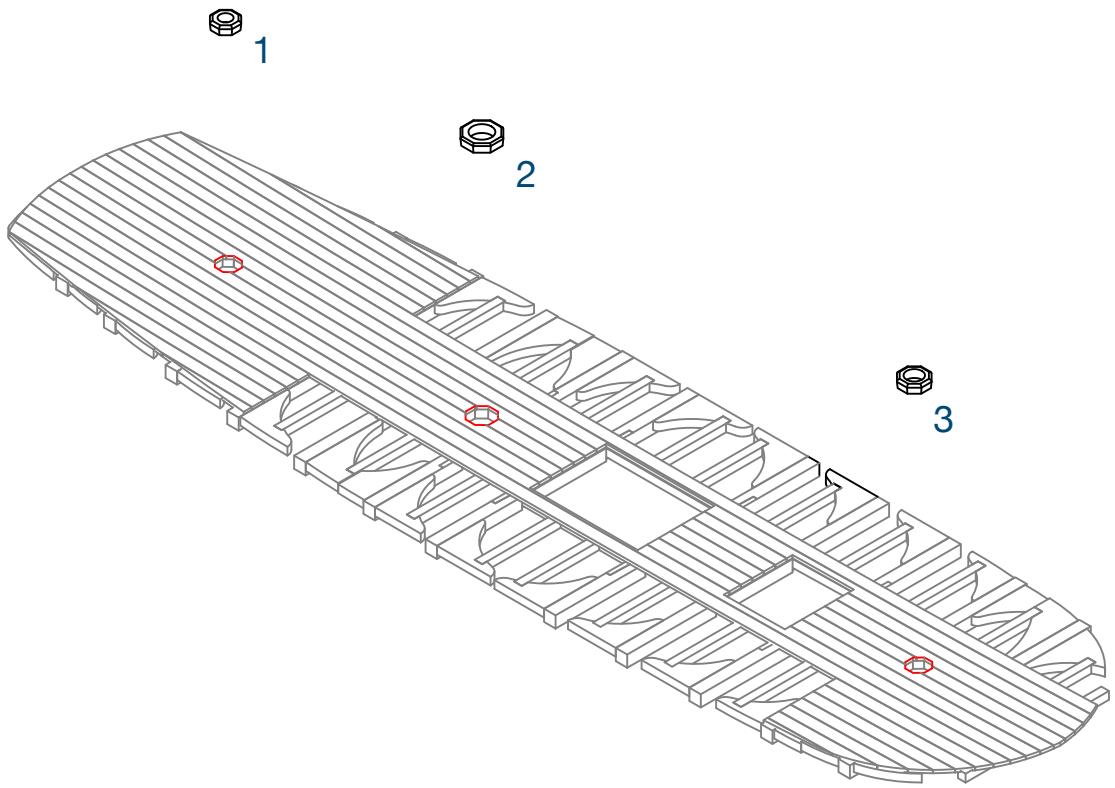

1

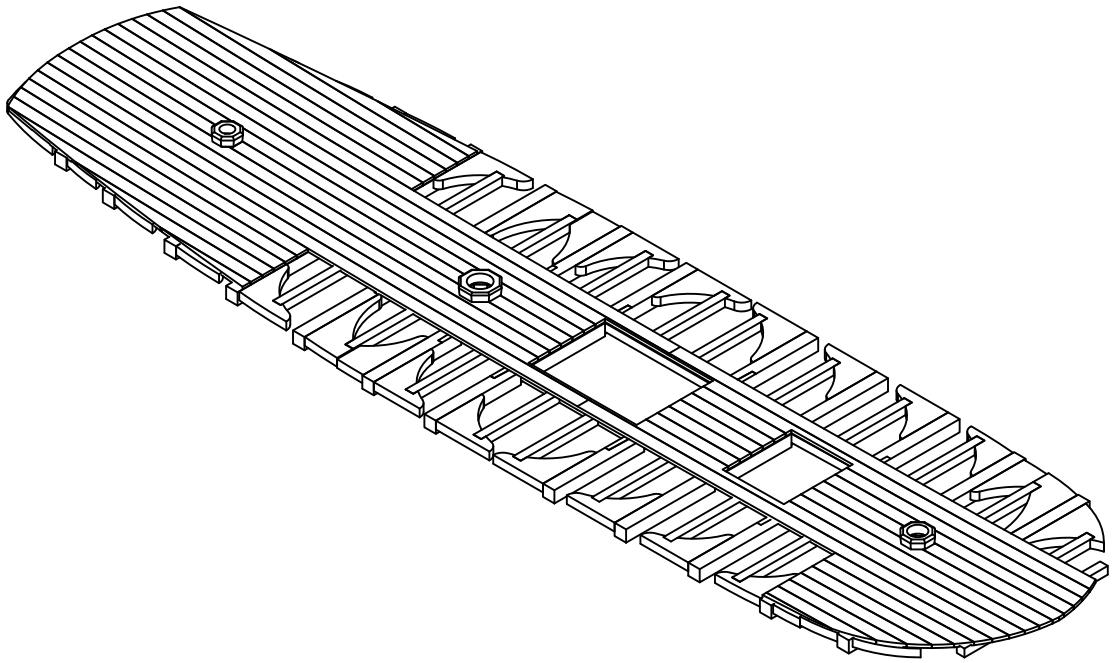

1 Remove pieces 1, 2 and 3 from tablet 7-06. Bevel the three pieces at the top, tapering them by 10° so that they can be fitted to the deck.

2

2 Position the three mast feet (as shown in red on the drawing) and glue them to the deck.

3

3 The three mast feet correctly positioned.
